

**Dreamweaver I - CIS 9988**  
**Final Project – Maximum of 30 points**

To consider the project complete, you will need the following items:

- A written document answering the questions on page DW25 for the items of PLANNING and DESIGNING;
- At least 2 different pages;
- At least 3 different links (at least one link needs to be to an external website);
- At least 2 images;
- At least 1 table;
- At least 1 form (the form needs to have 1 or more radio buttons; 1 or more text fields; 1 or more checkboxes; 1 or more buttons; 1 or more menu field). The form needs also to have the Validate Form behavior added;
- All files (preferably saved on a CD or uploaded to a web host) with your website created in DW CS3

You will build this project using your lab time and/or extra time (if you have access to Dreamweaver anywhere else).

Remember: If you choose to deliver your final project in a CD, the CD won't be returned.

Criteria for the evaluation (maximum points are shown → Total of 30 points):

- Documentation of the website is clear and matches what is presented on the website = 9 points
- Pages of the website are easy to navigate, clear to end-user = 6 points
- The objects inserted in the website follow accessibility standards = 6 points
- The objects inserted in the website are appropriate and add value to the information on the site = 6 points
- Creativity = 3 points
